

Alipay+ in-Store

Wallet

Launched at the end of 2021, Alipay+ is a suite of cross-border mobile payments, connected by a back-end system provided by Ant Group. Operating in 57 markets, mainly in Asia Pacific, Alipay+ gives merchants and PSPS access to over one billion consumers. It's easy and inexpensive to integrate, even for small retailers, whether online or on the main street. And it allows consumers to pay with their locally preferred payment methods even when they travel abroad or shop online across borders.

Why Alipay+ in-Store?

Alipay+ provides instant access to more than 25 payment methods, in 57 markets, accepted by 88 million merchants and used by over 1 billion consumers.

By allowing shoppers to easily pay with their trusted payment methods, even when they travel or shop abroad, Alipay+ breaks down barriers to conversion.

Using Alipay+, shoppers can pay both online and in-store often with a single click or by simply scanning a QR code, making shopping easy, fast and fun.

How it works?
