

Established in 2001, Skrill was one of the very first e-wallets. It operates in 200 countries worldwide and supports 40 different currencies. It offers a range of online payment and money transfer services, ATM withdrawals, and prepaid debit cards. Consumers add money to their wallets using options including bank transfers and credit cards and confirm the payment with their Skrill log-in. They can also activate Skrill '1-Tap' at the same time to pay for future purchases with the click of a single button.
